Frequently Asked Questions

1) How it works?

Every individual has his/her auspicious (most luckiest) days in a month based on his/her Bazhi (8 characters). This Bazhi breakdowns into Element of Metal, Wood, Water, Fire, and Earth. An Element which represents wealth (difference person represented by difference Element) is indicated in this application. With this knowledge, we can invest, bet or even gamble (although not encouraged) on these days. By doing so, we can increase our chances of success..

2) How accurate is this calculation?

Well, it doesn't mean 100% accuracy but does increase your chances and reduce unnecessary losses. Of course, there are other contributing factors like your own destiny, your house Feng Shui, etc that may divert your luck too. If you consider other contributing factors as secondary, then those dates are still your most auspicious dates in your luck pillars.

3) Why are you doing it for others if you can quietly enjoying the benefit from the lotteries?

What I'm doing now for the token of only USD\$18.80 is to convince the others that Geomancy isn't just a belief, it's something that works.

4) What can I do with these dates?

You may start an invest account, trade, queue up for lotteries, play a game of Black Jack, etc on these dates.

5) How do I obtain these dates and make payment?

You may need to furnish me with your birth date and time, via email, and I will provide you with the 10 dates, via email, within 7 days of receiving your payment. Payment can be made thru' **PayPal** online or POSBank transfer.

6) Why do I need to wait for another 7 days upon making payment before I get those dates.

Analysing the Luck Pillar of an individual is a very complex job and we can't rush to it. We can't just simply pick any dates from the air. Careful analysis is our mission statement.
